ANNUAL REPORT OF MISS VANDIVER

SECRETARY OF THE SUNDAY SCHOOL WORK IN THIS STATE TO THE EXECUTIVE COMMITTEE LAST NIGHT

School Association:

teemen of this association, and to the splendid body of men and women all splendid body of men and women all over the State, who are giving of their time and brain force and money to make the organized, work in this trace a force for righteousness. I come before you with my fourth report. As this report covers but ten months of work, it is not the actual figures that make our hearts bound with retoicing, but it is the quickenwith rejoicing, but it is the quicken-ing of interest, the larger vision, the greater consecration, which has re-sulted in improvement along all lines of our work, which cannot be measured by mere figures. It would take but a single trip to a country ct vention or a look into our letter files to catch the cager spirit of our vention or a look into our letter workers, and the carnestness and zeal with which they are doing the

The splendid gathering of Sunday school workers at the convention at Sumter and the fine way in which they took hold of the practical suggestions for increasing the efficien of our State-wide organization, laid the foundation for the year's work. There has been a marked advance in the kind of conventions held in most of the counties. There is a larger grasp of the meaning of the organized work and a greater appreciation of methods of work, County Organization.

Convention have been held in the following counties, Abbeville, Alken, Berkley, Calhoun, Charleston, Chester, Chesterfield, Cherokee, Colleton, higefield, Florence, Greenville, Hor-ry, Jasper, Kershaw, Lancaster, Lauens, Lee, Marion, Newberry, Oconee Pickens, Richland, Saluda, Spartanjurg, Sumter, Union and York, Kight counties: Anderson, Bamberg, Clar-enden, Georgetown, Greenwood, Orangeburg, Williamsborg and Hamp-ton, are organized counties, but did not get in their conventions, perhaps because of the earliness of the State Convention date. There are still three counties in which there has sever been an organization: Barn-well, Darlington and Doronester, and five counties where the organization is but enough alive to be called an organized county. These are Beau-fort, Dillow, Fair heid, Lexington and Marlboro.

County Standing-Despite the fact that we have been ing a county standard for only about eighteen months, we now re-Front Line Counties. There has been fine work done in the counties in order to bring the organization up to these standards. The following counties have reached the Bauner Standard: Berkeley, Calhoun, Chesterfield, Horry, Richland, Saiuda, Sparlan-burg, Union and York. The first three mentioned, Berkeley, Cathons and are I want to express my gratitude thesterfield deserve special mention with that of this committee to her because of having reached the stand- for her splendid service to the asard in a single year, as -11 three of sociation. these counties were organized just-Colleton county Front Line rank or last year, and Union, under the splendid leadership of the county secretary, Mr. C. N. Alexander has taken in addition to the Banner Standard, the Front Line committees which will be displayed

By the action of this committee at its last annual meeting, the form of erganization within the county was channed from translatin associa-tion to district association. Judgits from results attained this year effort district organization, it is the wiseat step the executive committee could have taken along the line of organi-

Bepartmental Work.

I wish to acknowledge with gratitole and purchased the work of
the divisional and departments! auparintendents of the State work. The
Elementary work, under the leadership of Mrs. E. N. Bosts, has done
spiended work. Mrs. Bosts work is
of an unusually high order, her intelin an unusually high erdor, bon intel-line.

In energy, and her willingness to give her time, even to the point of escribee, and above all, her large vision of what the Elementary work can mean to the State, has made her invaluable to office and field allow. The two excellent Elementary contwo extenses alementary con-ference programs for this repression are Mrs. Burne work. We are also must fortunate in the caperintendent of the Secondary division, Prof. Honry A. Wise, of Columbia

Following is the annual report of partment of our work. Although an the general secretary, Miss Grace W. exceedingly busy man, Mr. Quattle-baum is never too busy to attend to our requests from the office, and in School Association:

It is with a deep sense of gratitude to the Father for His wonderful

Mr. W. A. Harrison has been a faithful and untiring worker in the Home Department work of the State. In addition to the correspondence and L'romoter" department he has atended county convention, when possible, and presented the Home De-partment. Rev. J. E. Coker, much to our regret, has tendered his resigna-tion as Home Visitation superinten-

dent, because of the lack of time to do the work as he sees it could be done. Mr. Coker has done the State excellent service in this department.

Dr. Joseph Quattlebaum has had charge of the Temperance Departcharge of the Temperance Department, and has kept that department before the people through his department in the "Promoter". I wish to add my personal appreciation, as well as that of the association, for the loval and cheerful carries these departmental superintendents have given to the work, the love the field work has grown so have

As the field work has grown, so has grown the office work. In ten months we have sent out 4,280 personal let-ters, 1,400 circular letters and something like 16,800 pieces of literature The first of last October, Mrs. Ma. mie B. Matthews, who les served the association so faithfully for more than a year, resigned her position. We then secured Miss Cora S. Hol-land, who since that time has carried on the work of the office in a most efficient and painstaking man-ner, in the months bliss Hotland has been with us, she has shown her interest, not only in her faithful service, but in the intelligum way which she has handled the work, and her splendid grasp of the situation.
